

Greenbelt Land Trust Conservation Map

The Conservation Opportunity areas, shown in green, are landscapes where broad conservation goals can be met. While we do not limit our land protection effort to these opportunity areas, working in these landscapes can increase long-term success over large areas, and promote cooperative efforts across ownership boundaries. These priority landscapes have been identified jointly by Oregon Department of Fish & Wildlife in the Oregon Conservation Strategy and The Nature Conservancy's Willamette Valley Conservation Priority Synthesis.

LUCKIAMUTE

- 145 acres
- Conservation Easements (2 owners)
- Upland & Wetland Prairie, Riparian Forest

SOAP CREEK

- 9 acres
- Conservation Easement
- Douglas Fir Forest, Upland Prairie, Pond Habitat
